DOT PEEN TECHNOLOGY : FAST MARKING ON ALL MATERIALS !

Dot peen marking is achieved by a controlled electromagnetic pulse striking a carbide or diamond stylus assembly against the surface of the part to mark.

This type of marking (text, digits, logo) is made of a succession of dots. Each dot is created by the impact of the stylus on the surface. The force is given by a controlled current pulse through an electromagnet, in order to push the magnet toward the surface. A spring returns the stylus assembly to the start position, waiting for the next pulse. Frequency can vary depending on the force selected and the speed of X and Y axis movements.

SIC Marking dot peen technology is unique by the fact that the electrical current is measured between each pulse in order to control the impact consistency.

PORTABLE & COLUMN-MOUNTED SYSTEMS

E9 hand-held and column-mounted marking machines have been designed for industrial use. The portable range is made of the portable range is a lightweight, mobile and robust marking system ideal for marking heavy or bulky parts. The column-mounted range is especially designed for marking almost all type of parts (small or medium size) directly on a workbench.

These high speed and powerfull marking systems can mark on all types of material, from plastics to hardened steel -62 Hrc- with a constant quality and accuracy.

The ownership and operational costs are very low, no consumables are required.

HIGHLIGHTS

■ Robust and reliable

- Designed for industrial environment
- Cast aluminum body

■ Simple and user-friendly

- Lightweight
- Mobile, ergonomic, and versatile
- Simple programming

■ Wide range of options

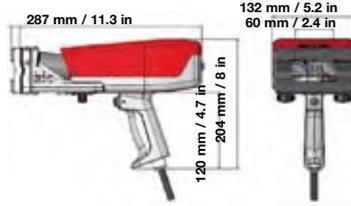

■ High performances

- 100% electromagnetic technology
- Constant precision and quality
- High speed marking
- Powerful integrated software
- Marking of heavy or bulky parts, up to 62HRC

■ Low cost of ownership

- Low initial investment
- Reduced maintenance
- No consumables

p62

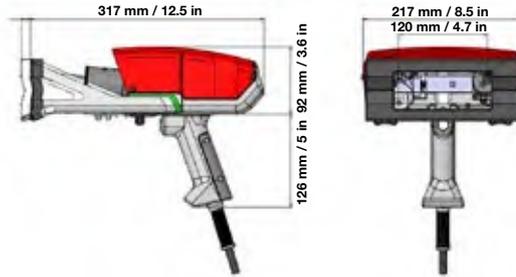

marking window - 60 x 25 mm / 2.4 x 1.6 in

■ ADVANTAGES OF e9 p62.....

- LIGHT AND COMPACT
- Only 3.5 kg/ 7.71 lbs
- Robust cast aluminum body and handle

p123

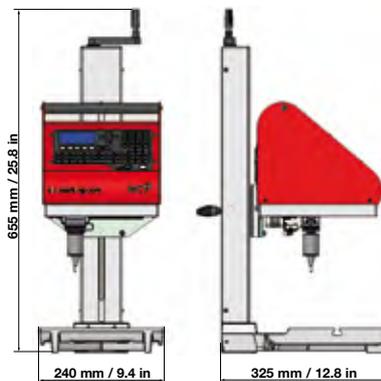

marking window - 120 x 40 mm / 4.7 x 1.6 in

■ ADVANTAGES OF e9 p123.....

- WIDE MARKING WINDOW
- Robust cast aluminum body and handle
- Stainless steel spring strain relief cable protection
- V-grooved front plate with automatic settings for stylus/part distance

ec9

marking window - 100 x 100 mm / 3.9 x 3.9 in

■ ADVANTAGES OF ec9.....

- SIMPLE AND ROBUST
- Steel /cast iron column and base
- Equipped with D rotary axis or plate holder

MECHANICAL TECHNICAL FEATURES

	e9 p62	e9 p123	ec9
Marking window	60 x 25 mm / 2.4 x 1 inches	120x40 mm/ 4.7 x1.6 inches 120x25 mm / 4.7 x 1 inches (optional)	100 x 100 mm/ 3.9 x 3.9 inches
Weight	3.5kg / 7.7 lbs	3.7 kg / 8.1 lbs	23kg / 50.7 lbs
Robotic cable	3 m / 9.8 ft (up to 15m / 49 ft in option)		-
Stylus	Carbide		
Positioning	V-groove front plate		-
Maximum part height	260 mm with optimal column		270 mm
Rotary D axis (option)	For parts up to 150 mm / 5.9 in diameter and 3 kg / 6.6 lbs		

Characteristics

- Fully programmable
- Angular and circular marking
- Self explanatory icons
- Standalone operation (no PC required)
- Industrial membrane keyboard

ELECTRONIC TECHNICAL FEATURES

e9

Dimensions (d x l x h)	240 x 226 x 195 mm / 9.4 x 9 x 7.5 inches
Weight	4.6 Kg / 10.1 lbs
LCD screen	70 x 35 mm / 2.8 x 1.6 inches
Keyboard	Qwerty integrated, membrane overlay
Power	100 Watt
Power supply	110 V or 220 V / 50 to 60 Hz

SOFTWARE

Memory	128 Kb
Alphanumeric characters	Serial number, date coding
Logos	Download from PC
Fonts	4x6, Arial, Comic, Comic_B, Courier, OCR, OCR_BOLD, OCRA
Style	Angular, radial
Character size	From 0.1 mm / 0.004 inches to 99 mm / 4 inches (restricted by marking window size)
Impact force	9 adjustable levels
Depth	Up to 0.3 mm / 0.012 inches (depending on material marked)
Resolution between dots	0.05 mm / 0.012 inches
Maximum stylus stroke	Up to 9 mm / 0.35 inches
Password	1 security level
Software	15 languages

COMMUNICATION

Ports	RS232, USB
Inputs/Outputs	2 inputs
PC based software	Backups, logo creation and transfer

SIC Marking® ACTIVITIES

SIC MARKING, THE MARKING SOLUTIONS LEADER

SIC Marking is an international company dedicated to the development of permanent marking solutions & automated identification for complete traceability of industrial components.

SIC Marking has developed a full range of exclusive marking machines - dot-peen, scribing & laser technologies - and services.

SIC MARKING, A WORLDWIDE NETWORK 40 DISTRIBUTORS AND 5 SUBSIDIARIES
